FRANCE

THE HEART OF EUROPE

Location. Location. Location.

Studying in France will give you the opportunity to discover the innumerable treasures of French culture. Located at the heart of Europe, France is home to many diverse and beautiful sites, from the beaches of the Mediterranean to the majestic Alps, vibrant European cities to the great cliffs of Normandy. And France is also Martinique and Guadeloupe in the French Caribbean, French Guiana, French Polynesia, Réunion in the Indian Ocean, and more...!

Many French institutions of higher education are located in city centers – at the heart of social and cultural life in their region. All of France's cultural attractions offer student discounts and favorable membership rates.

Talk to the World, Start Your Future

French opens doors and opportunities. Spoken by 220 million people around the world, it is the official language of 32 countries on 5 continents, one of the three working languages of the European Union, one of the six official languages of the African Union, and one of the six working languages of the United Nations.

When Considering a College or University: **Choose France**

With 77 universities, over 200 engineering schools, 200 schools of business and management, 120 public art schools, 20 schools of architecture and over 3000 specialized institutions providing instruction in specific professional sectors, France offers a program of study for everyone.

Higher education is state-funded, so tuition costs at French public institutions and universities are among the lowest in the world, making their high-quality degrees a remarkable value. Tuition costs, access to student accommodation, and health-care coverage are identical for international students and French students. In addition to this, a growing number of French institutions offer programs taught in English, providing opportunities for non-French speakers in a wide variety of subjects.

Say Yes: **to Excellence**

Benefit from France's long tradition of excellence in research, innovation and education. The fifth largest economy in the world, France invests 1.4% of its GDP in its higher education system, making it one of the most developed and renowned globally.

Discover Europe

Bordered by nine different countries, France is the ideal jumping-off point to discover Europe. The proximity of London (2 hours by train from Paris), Berlin (1 hour flight from Paris), Brussels (1 hour by train from Paris), Barcelona, Munich, Milan, Rome and many other great cities means you will have a chance to explore the whole of Europe on weekends and during your vacations.

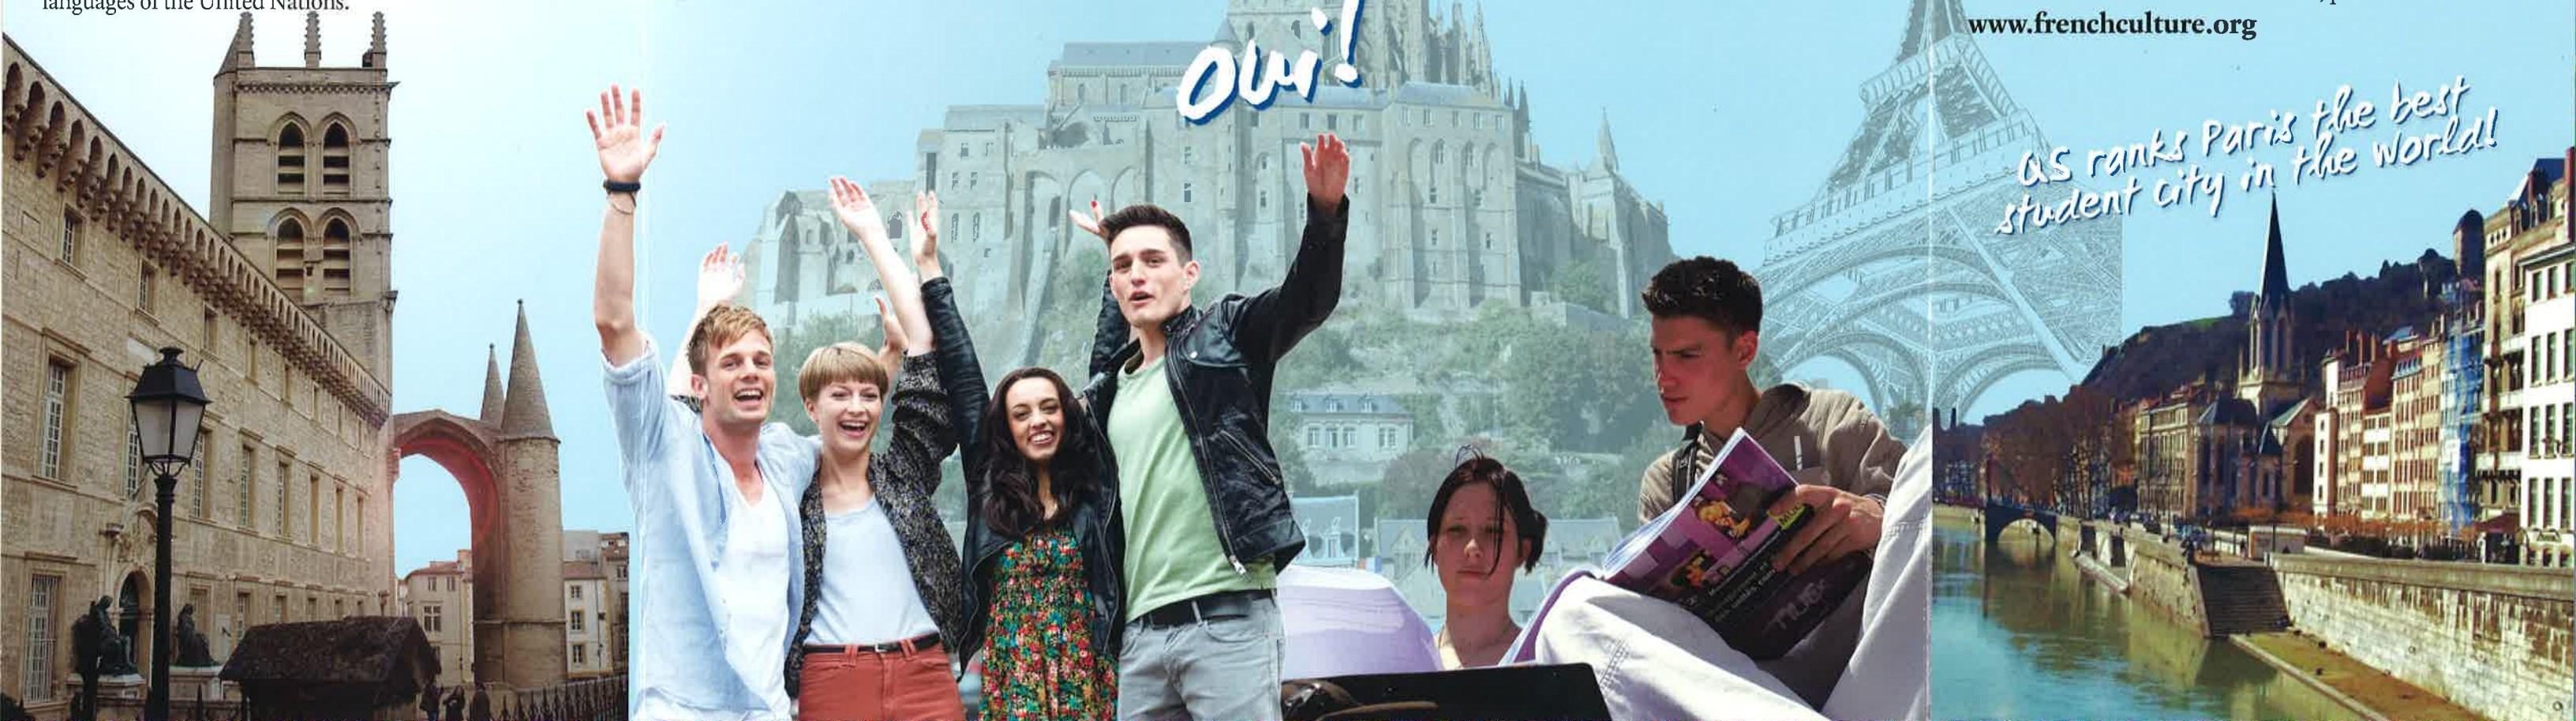

choose

- To discover a new culture
- To be one of 280,000 international students in France
- To boost your career by gaining international experience
- A language spoken in Africa, Belgium, Canada, Switzerland, the Caribbean, the Indian Ocean, Polynesia...
