Partnership Network Selection Rubric - School # ____

The Winthrop Partnership Network will positively impact student achievement in grades P-12 by strengthening and formalizing collaborative school-university relationships to improve preservice and inservice teaching practice. A Network of Professional Development, Partner Schools, and Content Area Assembly members will be selected to facilitate four goals:

- 1. Improve student academic achievement;
- 2. Improve professional learning for school-university faculty and teacher candidates;
- 3. Strengthen the pre-service preparation of teacher candidates; and
- 4. Increase support for new teachers.

Partnership members are carefully selected through mutually agreed-upon criteria reflected in the rubric. The Partnership Advisory Council determines a numerical ranking based upon an application cover, self-audit (if applicable), principal letter of interest, and school renewal plan (if applicable). Rubrics and rankings are submitted to the appropriate school district and university leadership personnel to make a final decision regarding selection.

Element	HIGHLY COMPATIBLE	COMPATIBLE	LESS COMPATIBLE	Comments/Evidence
Application	All parts of the application are complete.	All parts of the application are	Parts of application are left blank.	
	Effort to provide supporting evidence is	complete. Supporting evidence is	Questionable or missing evidence	
	clear. Application letter strongly	provided. Application letter addresses	provided for support. Application letter
