Middle Level Education PRAXIS Subject Assessments Policy for Internship II

In order to qualify for Internship II, MLED candidates must have:

- 1. attempted PRAXIS Subject Assessments in both content area concentrations, and
- 2. passed at least one of the concentration area PRAXIS Subject Assessments.

If both PRAXIS Subject Assessments have been passed, then the candidate will continue with Internship II in the content area that was not the focus of Internship I.

If only one PRAXIS Subject Assessment has been passed, then the candidate can either:

- a. elect to do Internship II in the content area of the exam that has been passed (even if it repeats the content area of focus in Internship I);
- b. submit a written request (with documentation) to the program faculty to continue with Internship II in the content area of the exam that has not been passed by qualifying with an established GPA of 3.0 in all courses related to that content area (not just those that count toward the content concentration in the degree program) and a PRAXIS Subject Assessment score on that content assessment that is no more than 5 points away from the passing score; or
- c. submit a written request to the program faculty to attempt to qualify for Internship II placement in the content area of the exam that has not been passed by submitting to a one time (approximately 30 minutes) oral examination in the content that will be conducted and evaluated by a team of Winthrop faculty and middle level teachers of the content area from our partner schools. (The candidate has only one opportunity to do the oral examination, and the decision of the team of evaluators at the conclusion of the examination session will be final.)

Effective 12.15.2015
