

## Log in to Blackboard

---

### Overview

This tutorial will explain how to **Log in** to Blackboard. At the end of the document, you will find a list of [Helpful Resources](#) for common problems and solutions.

### Quick Steps

Blackboard Login page > Submit credentials > Courses link on left > Course Home page

### Step 1

Go to the [Blackboard Login](https://bb-winthrop.blackboard.com) page (<https://bb-winthrop.blackboard.com>).

### Step 2

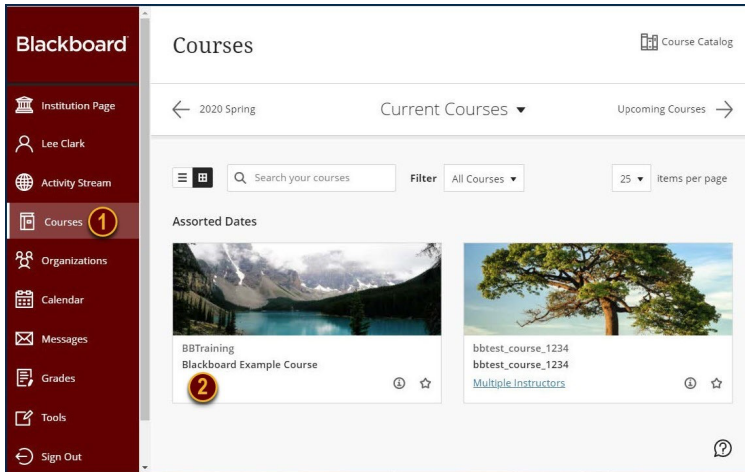

Use the “SECURE LOGIN WITH WINTHROP EMAIL (SSO)” button to login with Winthrop Single Sign on, then, click on your email address. The Alternate Login button is for anyone without a Winthrop email account.

**Note:** If you are already logged into a SSO service, you will not be prompted to log in to Blackboard.

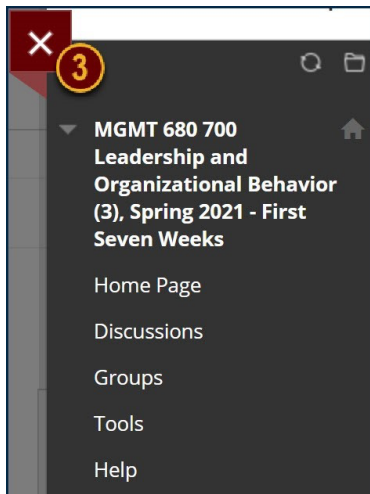

### Step 3

After you log in, click on the Courses link [1] on the left navigation menu, then click on the title of a course [2] to open it.

### Step 4

From the Course Home Page, use the left Course Menu to navigate through the course.

### Step 5

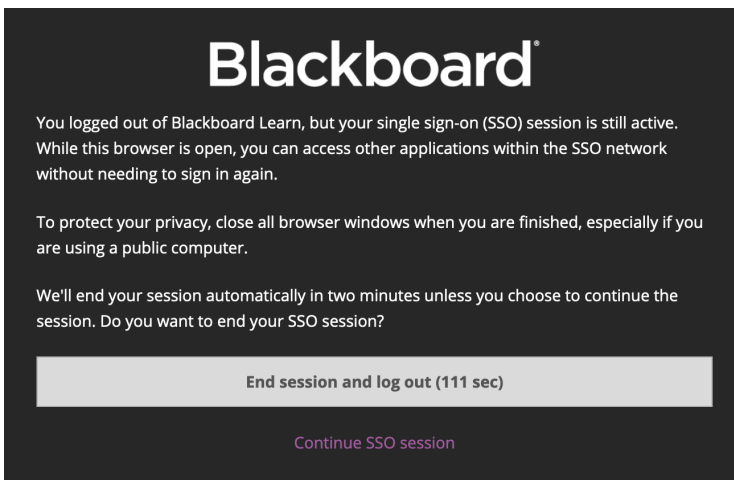

Click the X at the top left of the Course Menu [3] to return to the Courses page. You may access another course or use the left navigation menu to navigate to other areas of Blackboard.

## Step 6

To log out of Blackboard, click on the “Sign Out” link, the last option on the left navigation menu.

You will then be presented with two options for signing out.

The first option, “End session and log out”, will log you out of all Winthrop Single Sign on systems, like Office 365, Zoom, or Wingspan. The alternative option will keep you logged in to those other systems.
